(330) 806-8150 | weigand.trent@gmail.com | www.linkedin.com/in/trentweigand | www.trentweigand.com

I am a dedicated and analytical professional with a strong background in data analytics, financial management, and process optimization, currently serving as a Senior Clinical Affairs Economics Analyst at UPMC. Leveraging my technical skills, I excel at navigating complex datasets to deliver actionable insights that guide strategic initiatives. My military experience in the Ohio Army National Guard has honed my leadership, logistical planning, and critical thinking skills, enabling me to manage high-stakes projects with poise, precision, and adaptability. Recognized for innovative budgeting and reporting processes, I have a proven track record of improving operational efficiencies and collaborating across teams. With a bachelor's in mathematics from Duquesne University and a graduate certificate in management and leadership from Liberty University, I am committed to delivering results in dynamic, data-driven environments.

PROFESSIONAL EXPERIENCE

University of Pittsburgh Medical Center

November 2024 - Present

Senior Clinical Affairs Economics Analyst

- Creates, maintains, and manages the 2025 clinical initiatives tracking and reporting processes (85+ initiatives) impacting more than \$150M of Medical and Pharmacy Expense savings annually
- Navigates complex data sources and partners with customers to calculate detailed initiative savings estimates
- Communicates, integrates, and adapts processes and products to fit the needs of customers and consultants
- Updates, distributes, and maintains monthly membership reports for multiple lines and sub-lines of business
- Successfully lobbied for and implemented the bulk upload process of data into an external consultant's software, relieving executive-level partners of manual update burdens

Intermediate Clinical Affairs Economics Analyst

May 2023 – November 2024

- Developed into the team's expert and primary analyst on tracking all 30 Medical Policy initiatives
- Updated the initiative reporting process to a single file using array functions and macros to maximize efficiencies
- Created the 2025 clinical initiatives budgeting process to efficiently track and budget 75 clinical initiatives
- One of five promoted in the Department of Health Economics (70+) during the 2024 hiring & promotion freeze

Associate Clinical Affairs Economics Analyst

March 2022 – May 2023

- Reconciled a contract involving \$18M + claims expense with an external vendor despite their initial concerns
- Owned and managed the 2024 clinical initiative budget process including 30+ initiatives across 8 product lines
- Nominated for a UPMC ISD Hero award for creating improved reporting templates and budget processes

Ohio Army National Guard

July 2021 – Present

First Lieutenant

Financial Management Officer & Unit Movement Officer (37th IBCT, HHC)

- Responsible for leading the finance section for the largest infantry brigade in the state of Ohio
- Provides logistical planning and support for 6 battalions totaling 3000+ soldiers and their equipment
- Successfully led squads of 6-10 soldiers on dozens of high-stress training missions, enhancing team readiness
- Earned the Alumni Award for leadership and performance as class Vice President during Officer Candidate School

Duquesne University Men's Basketball

August 2018 – May 2020

Team Manager

- Assisted with organization and execution of daily practices for 20+ coaches and players
- Supported logistics for over 30 games annually resulting in streamlined operations
- Awarded a \$6,000 scholarship for senior year based on outstanding job performance
